WHEREAS, petitioner has represented and presented evidence that the projects will create 14 new permanent full-time jobs with combined annual salaries of \$1,540,000.00 and that the cost of the project will be \$970,250.00 for equipment (the "manufacturing equipment").

WHEREAS, the Common Council of the City of Terre Haute is authorized under the provisions of I.C. 6-1.1-12.1-1 et seq. to designate areas of the City as economic revitalization areas for the purpose of tax abatement; and

WHEREAS, the Common Council of the City of Terre Haute has considered the petition and Statement of Benefits and has conducted a complete and proper investigation of the subject property and neighborhood to determine that the area qualifies as an economic revitalization area under Indiana statutes; and

WHEREAS, the Common Council has found the subject property to be an area where facilities that are technologically, economically or energy obsolete, are located and where the obsolescence may lead to a decline in employment and tax revenues and has become undesirable for or impossible of normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements, character of occupancy, age, obsolescence, substandard buildings and other factors, which prevent normal development or use;

WHEREAS, the personal property abatement is a declining percentage of the increase in assessed value of the improvement based on the following time period and percentages as determined by the City Council:

5. The totality of the benefits of the proposed Project and installation of the new manufacturing equipment can reasonably be expected to result from the project and are sufficient to justify a ten (10) year personal property tax deduction from assessed valuation under Indiana statutes, and each such deduction should be, and they are hereby, allowed.
6. That the petition for designating the subject property as an economic revitalization area for the purposes of ten year personal property tax abatement and the Statement of Benefits,

CITY OF TERRE HAUTE

PROPERTY TAX ABATMENT PROGRAM OVERVIEW AND GUIDELINE SCORING SYSTEM

Program Description

Property tax abatement in Indiana is authorized under Indiana Code 6-1.1-12.1 in the form of deductions from assessed valuation. Any property owner in a locally-designated Economic Revitalization Area (ERA) who makes improvements to the real property or installs eligible new or used personal property (such as manufacturing equipment and certain research and development equipment) is eligible for property tax abatement. Land does not qualify for abatement. .

Scoring System

The City of Terre Haute utilizes a scoring system as a guide for determining the appropriate length of time (one of ten time periods can be used) of the property tax abatement(s) being sought for a proposed project. Additional information on the scoring system can be found elsewhere in this document.

Indiana Real Property Assessment Standard

A property's assessed value is the basis for property taxes. Annually, local assessing officials assess the value of real property on March 1 based on market value in use of the property. Property owners can estimate the property taxes for new construction by adding the cost of the land and improvements together and multiplying by the tax rate. For real property tax abatement calculation purposes, the cost of the improvements (the land itself cannot be abated) would be utilized as the real property assessed value. This real property assessment value would then be phased-in over one of ten time periods.

Indiana Personal Property Assessment Standard

Personal property values are assessed March 1 of every year and are self reported by property owners to township assessors using prescribed state forms. Generally speaking, personal property taxes are levied against all tangible property other than real property. Numerous deductions can be applied to personal property. Of course, the value of personal property over time will be subject to depreciation, therefore, applicants are advised to seek the counsel of a financial advisor to determine which asset pool(s) (see following table) would be applicable to their particular project.

Additional information on the State of Indiana's property tax assessment system can be found at the Indiana Department of Local Government Finance website at www.in.gov/dlgef.

Project Eligibility Criteria

Decisions to designate areas as Economic Revitalization Areas are determined by the City Council. The City Council utilizes a numerical scoring system as a guide for designating areas as Economic Revitalization Areas within the corporate limits of the City of Terre Haute. Each project is scored on its individual merits. The points system that is utilized to evaluate projects considers the degree of revitalization that the project will have on the surrounding area as well as other facts such as employment (created and/or retained), investment, utilization of local construction firms and labor and so forth.

The following projects will be considered by the Terre Haute City Council for property tax abatement. The real property guideline project scoring criteria can be found in the section entitled "City of Terre Haute Real Property Tax Abatement Guideline Scoring Criteria" on page 8. For projects seeking personal property tax abatement, the "City of Terre Haute Personal Property Tax Abatement Guideline Scoring Criteria" can be found on page 10.

(A.) Manufacturing Project – Local manufacturing projects, local manufacturing-related office structures and local manufacturing-related warehouses that create or preserve employment within the city limits are eligible for property tax abatement. In the case of manufacturing facilities that directly produce product (as well as manufacturing related-warehouses), both real and depreciable personal property are eligible. In the case of manufacturing-related office structures, only real property is eligible for abatement. Also, certain research and development equipment may qualify for depreciable personal property tax abatement.

(B.) Non-Manufacturing Warehouse and Distribution Center Projects – Warehouses and distribution centers not related to a local manufacturing facility may be eligible for both real and depreciable personal property tax abatement. To be eligible for property tax abatement, the facility must substantially serve markets beyond the Terre Haute metropolitan area.

(C.) Office Space Development – Office space developments within the city limits are eligible for real property abatement provided the project substantially serves markets beyond the Terre Haute metropolitan area.

(D.) Historic Preservation – Projects within the city limits that assist in the preservation of buildings of significant historical nature will be considered for real property abatement.
