Please send to all City Council members.

My name is Susan Dean and I live at 2649 Oak Street. I oppose the passage of General Ordinance NO. 3, 2022 Sec. 8-21, changing 27th St. between Wilson Street and Oak Street from a two-way street to a one-way street.

- People who live on Oak Street cannot drive to our neighbors who live on Wilson and/or Crawford Streets without using an alternate route.
- Bicyclists, because they are required to follow the same rules as a licensed automobile driver, will need to use 25th or 29th Streets. These streets are much too busy for a bicyclist.
- The cautious neighborhood drivers have never had an accident on 27th St. that anyone can remember.
- All neighbors allow the first driver to reach 27th St. the right of way. The second driver patiently waits his/her turn.
- This street, 27th St., has met the needs of our neighborhood for 50+ years.
- A request by one person should not supersede the needs of 100+ neighbors.

Thank you
