Subject: Thursday February 1st

Council members,

I have been talking to Lisa Spence about participating in an event on Thursday, February 1st at 6:00. The event will be up to four council members (as we can have no more due to open door) engaging with a few members of the public at Clabber Girl. I am sending everyone this as an invitation to all of those on council to participate in this event if you wish to do so, but also keeping in mind we can have no more than four council members present. If you think you would be interested in this please contact me as soon as possible. It will be made very clear that this is not a city council event, but a public engagement event with a few city council members. I hope you all have a great weekend!

Curtis DeBaun IV
