Vigo County Council,

How is the Public Safety LIT money being spent by the City? I urge you to not let it go to the police who already have way too much money and power in this community. Terre Haute needs #CareNotCages. We want more mental health professionals, more diversion, more drug rehabilitation, more restorative justice. Officers with guns are rarely the solution we deserve. We need to focus more on rehabilitative efforts as opposed to punishment. We are the future and we are watching YOU.

Sincerely,
Brittany Hall
