Dear Ms. Edwards,

As an ISU student who has fallen in love with my new Terre Haute community while away from home for college, I want to see this community thrive. This is why I'm asking for the City of Terre Haute to consider a new approach to public safety. I want to see crime prevented by investing funds into community-based care such as mental health care services, drug treatment and rehabilitation, and restorative justice (to name a few).

Best,
Lexie Parrott
