City of Terre Haute

SUBJECT: Historic Walnut

Dear Council,

Central State Construction is a local MEP Contractor. We have been working diligently with Commonwealth on pricing for the Historic Walnut housing project and look forward to working on this project.

We intend to use union labor from Terre Haute and the surrounding area on this project. We are signatory with Electricians Local 725, Plumbers and Steamfitters Local 157, Sheet Metal Workers 20 and Carpenters Local 133. We also intend to use local Terre Haute suppliers whenever possible. These include Kirby Risk, Industrial Supply, Connor Company, Duncan Supply and United Refrigeration.

Central State Construction would appreciate consideration of the Council to assist in this project by approving this request from Commonwealth.

Sincerely,

Larry D. Yargus  
President
